---	--

NOTA: Gli specchi della collezione **Echo** sono realizzati in acciaio INOX trattato per ottenere una finitura specchiata. Questa finitura è realizzata secondo standard e criteri di massima qualità, ma potrebbe presentare alcune leggere distorsioni ottiche (specialmente da distanze elevate). Gli specchi della collezione Echo sono da intendersi come un prodotto di home decor funzionale, ma non sono consigliati per applicazioni nelle quali la necessità di una resa ottica perfetta sia una condizione necessaria.

La manutenzione è parte essenziale per preservare al meglio le caratteristiche di riflessione: spolverare con strumenti morbidi come panni o piumini elettrostatici, lavare se necessario con un panno morbido (es. microfibra) leggermente umido. Utilizzare acqua tiepida e asciugare con un secondo panno morbido per evitare aloni.

**NON UTILIZZARE** strumenti di pulizia abrasivi o detersivi (come quelli per i vetri), che potrebbero compromettere la finitura superficiale.

**NOTE:** The mirrors in the **Echo** collection are made of stainless steel treated to obtain a mirrored finish. This finish is made to the highest quality standards and criteria, but may show some slight optical distortions (especially from long distances). The mirrors of the Echo collection are intended as a functional home decor product, but are not recommended for applications in which the need for perfect optical performance is a necessary condition.

Maintenance is an essential part of preserving the reflection properties at their best: dust with soft tools such as cloths or electrostatic dusters, wash if necessary with a soft, slightly damp cloth (e.g. microfibre). Use warm water and dry with a second soft cloth to avoid streaks.

**DO NOT USE** abrasive cleaning tools or detergents (such as glass cleaners), which may compromise the surface finish.

\* sconti disponibili per professionisti, rivenditori, gallerie, marketplace e ordini multipli / **discounts available for professionals, resellers, galleries, marketplaces and multiple orders**

\* misure personalizzate o modifiche progettuali disponibili su richiesta / **custom sizes or design modifications available upon request**

\* i prezzi non includono i costi di spedizione. Spedizione in 3/4 settimane / **prices do not include shipping costs. Shipping in 3/4 weeks**

\* tutti i prodotti sono realizzati artigianalmente e qualsiasi imperfezione è da intendersi come segno di autenticità / **all products are handcrafted and any imperfections are to be meant as a sign of authenticity**

(1995) Nato e cresciuto vicino a Torino, dove attualmente vivo e lavoro.

Progetto e realizzo elementi di arredo con un approccio sartoriale, che si traduce dal prodotto alla creazione di arredi su misura e alle consulenze di interior design. Attraverso i miei prodotti cerco di costruire un approccio pragmatico al design autoriale, in cui le soluzioni produttive e logistiche diventano un modo per esprimere una visione etica.

Ho collaborato con gli studi torinesi Nucleo, Studio F e Velvet Studio, e sono docente di Storia e Cultura del Design per lo IAAD di Torino.

Nel 2022 ho avviato la mia produzione personale incentrata sul metallo, un materiale che permette a tecnica ed estetica di svilupparsi armoniosamente. Nel 2023 ho presentato la mia prima collezione, Lockwerk, premiata ad EDIT Napoli come "Best Unreleased Product" della sezione Seminario.

La mia produzione è caratterizzata da oggetti in metallo che ostentano e mettono in risalto tutti quegli elementi di raccordo, come viti e bulloni, che solitamente vengono nascosti negli oggetti di arredo.

Il mio obiettivo è dare vita ad un design che sia al tempo stesso minimale e radicale.

(1995) Born and raised near Turin (Italy), where I currently live and work.

I design and make furniture with a tailored approach, which is conveyed from products to the creation of custom furnishings and interior design consultancies. Through my products I try to develop a pragmatic approach to authorial design, in which production and logistic solutions become the statement of an ethical vision.

I have worked with the Turin based studios Nucleo, Studio F and Velvet Studio, and I am professor of Design History and Culture in IAAD.

In 2022 I have started my own production grounded in metal, a material that allows technique and aesthetics to express themselves harmoniously. In 2023 I finally presented my first collection, Lockwerk, awarded in EDIT Napoli as "Best Unreleased Product" of the Seminario section of the fair.

My work consists in metal objects that show off and highlight all those connecting elements, such as screws and bolts, that are usually hidden in furnishing objects. My goal is to create a design that is both minimal and radical at the same time.
